Why We Charge for Parking

The Washington State Legislature and King County mandates that parking at Harborview be self-supporting. As a King County-owned, state-managed institution, all garages and parking lots on our campus are paid for out of parking revenues. Harborview parking revenues must pay for all repairs, bonds and loans on all parking facilities. Parking revenues are also used to subsidize various Harborview commuter programs and the valet service. According to the state legislature, parking revenues must pay for all these expenses and may not come from other sources.
