

Our Mission and Vision

Our mission is to prevent and counter the harmful, costly effects of traumatic experiences on victims, families and our community. These experiences include sexual and physical abuse and neglect of children, rape, sexual harassment, violent crime, accidents and disasters. Our services reflect the values, beliefs and traditions of our community and are available to people of all ages.

We recognize that delivery of quality services is enhanced by a strong commitment to teaching, community service and research. We are dedicated to preventing and countering the harmful effects of traumatic experiences on individuals and society through our training and consultation with professionals and through community presentations and community development work.

We gratefully acknowledge our supporters:

- ◆ City of Seattle, Human Services Department
- ◆ Office of Crime Victims Advocacy
- ◆ Washington State Department of Social and Health Services
- ◆ Washington State Criminal Justice Training Commission

HCSATS is committed to providing services to all individuals regardless of race, color, national origin, religion, creed, gender, age, sexual orientation, marital status or disability.

Access and accommodations are provided to persons with disabilities, and interpreters are available upon request.
