

Our Mission

Our mission is to prevent and treat the harmful effects of traumatic experiences on survivors, families and communities, inclusively. We strive to provide high quality, effective and culturally respectful care that is coordinated and multi-disciplinary. We serve the broader community through leadership, prevention, research, education and public policy advocacy.

Program Services

UW Medicine

Counseling and Advocacy Services

We provide brief crisis response; information and referral; advocacy; and support services at no charge. Please talk with your provider about these services and what is available to you.

Information and referral: resources and assistance related to sexual assault and traumatic experiences.

Crisis counseling and support: assistance by phone or in person to victims/survivors and families.

General, legal and medical advocacy: providing support and assistance in accessing services. Providing help for victims to ensure their interests and rights are upheld in legal and medical systems.

Evidence based therapy: For the psychological effects of sexual assault, trauma, child abuse, and crime.

Parenting Interventions: Parents learn specific skills to improve quality of parent-child relationships and effectively manage child behavior problems. Specific parenting programs offered.

Medical Services

Emergency care after sexual assault/abuse.

Scheduled medical exams for non-acute sexual assault, child abuse and neglect.

Forensic exams and documentation for court purposes.

Consultation for medical, legal, and child welfare professionals.

There are no fees for initial medical examinations for the purpose of gathering evidence. Fees for follow-up medical services are on a sliding scale. Crime Victims Compensation, Medicaid and other third party payers may apply. The center can help arrange coverage.

Evaluation Services

Psychosocial evaluations: specialized evaluations to assess impact of trauma on victims.

Evaluation and treatment: provided for young children with sexual behavior problems.

Foster Care Assessment Program (FCAP): provides a comprehensive assessment of a child's level of functioning in the home, school, and community. Assists with service planning and implementation. FCAP referrals are accepted from DSHS only.

Research and program evaluation

Collaborative research projects on topics such as rape, abuse and neglect of children, violent crime and accidents.

To request services

Services can be accessed 24 hours a day by calling the Harborview Abuse and Trauma Center. Please ask for the Emergency Department social worker on nights and weekends.
