1994 Graduates

Nine students graduated from the Law Librarianship Program in August 1994. To date, several have yet to find fulltime permanent positions. I have included current e-mail addresses for those still looking. If you have or know of any entry-level positions, please share your information! This past year many of the entry-level jobs were filled by very experienced law librarians—hard for a new graduate to compete in that setting!

Law Library Administration Course - Summer 1995

I am delighted that Jim Hambleton, Executive Director of the Texas Wesleyan University School of Law Library, will be teaching the Law Library Administration course this summer. Jim has taught a similar course at the Graduate School of Library and Information Sciences at the University of North Texas. Jim’s experience as a Client Representative for Mead Data Central, Director of the Texas State Law Library, Manager of Legal Information Resources at Haynes and Boone, as well as his academic positions, make him particularly well-qualified to teach this class.

What’s New at the Gallagher Law Library?

We are still bar coding and entering new records into Innovative all the time. (So what else is new, right?) We are making some headway on the recon of the Dewey collection, but it is slow. We are considering moving off WLN and going with only one bibliographic utility (probably RLIN), primarily because of cost, a better hit rate, and the
hassles of using two different systems. (We currently use RLIN for CJK vernacular records.)

No news yet from the legislature on the funding for a new Condon Hall. As most of you know, the University is supporting a new 200,000 gross square feet building to be located on hippy hill (off 15th near the Burke Museum). Total cost is estimated at $55 million, with $20 million to be privately raised. If funded this year, the building should be completed by 1999. The administration is very optimistic, though this is a tough year for predictions. The Dean wants to increase the size of the law school over the next few years to perhaps 225 entering students. We shall see! There are also moves to substantially increase tuition and allow the law school to keep a portion of that increase. Guess we are just one of the next to look more like a private school.

Thanks!

I want to thank you for your kind thoughts and notes during my bout with a ruptured disc and rehabilitation. I am doing very well. Still many nerves that are not yet regenerated, but am improving all the time. I want to especially thank the wonderful staff here at Gallagher. No way for me to have coped with this if everyone had not taken on extra work and more stress.

In addition, I owe Annetta Lawson (class of 1986) and Mary Hotchkiss a particular vote of thanks for teaching my winter and spring legal research classes. We always hate to miss the opportunity to stuff legal research skills into the heads of willing listeners! And, finally, a big thank you to Emily Quinn, who managed to finish the fall quarter class for me; and to all those law librarians who were guest lecturers in these classes!

Note for Serials Librarians

Please note that there was no Fall 1994 issue of this newsletter, due to my surgery. And this is the first issue we have sent by e-mail. If we have an e-mail address for you, you will no longer get a paper copy. Paper will be sent to those of you who do not yet have e-mail accounts that we know about. Welcome to the 21st century. Please remember to keep us informed about your movements and particularly to let us know your e-mail address. Send to abbott@u.washington.edu so we can keep current!
